

Max Weiner

Washington, DC | 240-899-4239 | Maxweinerb@gmail.com | [LinkedIn](#) | Maxweinerb.com

Customer Success leader with 10+ years driving retention, expansion, and customer outcomes across startups and public companies. Known for building strong customer relationships, effective CS programs, and tools - churn prediction models, health monitoring, customer journeys/playbooks, and driving expansion through value-realization. Execution-focused, data-informed, and increasingly obsessed with where CS and AI intersect.

PROFESSIONAL EXPERIENCE:

Senior Customer Success Manager, September 2025 - May 2026

Cloudflare Washington, D.C.

- Managed a portfolio of 8 enterprise accounts representing +\$18M ARR, growing a Fortune10 account from \$1.6M to \$5.5M ARR through executive engagement, maturing operations, and enablement.
- Generated \$2.5M+ in CS-influenced opportunities using self-created customer rhythm and strategic touchpoints that included CS re-introduction, success planning, and targeted technical workshops.
- Led 10+ Executive Business Reviews using a self-created value proposition and customer facing metric slides to better quantify outcomes for customers.
- Acted as PM for a customer-facing billing portal in collaboration with the Data team to develop a usage portal for Fortune10 account and served as initial beta for other complex enterprise accounts.
- Sponsored and facilitated an AI Hackathon for CS Department (+20 participants) and led AI vibe-code initiative to replace an external project management tool.

Manager of Customer Success Strategy, July 2023 - September 2025

Appian Corporation McLean, VA

- Oversaw 3-person team responsible for health and risk monitoring programs across 1100 global customers (+\$500M ARR), providing visibility, data governance, and strategies for at-risk customers.
- Managed the development and continuous optimization of 9 customer risk monitoring tools, including leading a team of data scientists and analysts to create a churn prediction model with 87% accuracy.
- Led technical success tiger teams across 25 global enterprise customers, retaining +\$15M in ARR flagged by the health monitoring program.
- Recognized with Collaboration Award and Impact Award for driving cross-organization effort and the adoption of customer health monitoring tools across global teams and +300 go-to-market colleagues.

Customer Success Manager – Enterprise & Strategics, April 2021 - July 2023

- Achieved +120% NRR across strategic book of business consisting of 6 enterprise customers representing +\$15M ARR and driving +\$1M in additional professional services.
- Led high-touch engagement model driving professional services, EBRs/QBRs, cadence calls, health checks, and proactive success planning that resulted in the additional adoption of +2000 Appian users.
- Selected as Product Manager to collaborate closely with Gainsight Administrators and created +20 CSM-specific playbooks, templates, reports, and other Gainsight best practices.
- Recognized with 2 Impacts Awards for developing the CSM onboarding curriculum and client-facing innovation using process mining/AI to proactively cut costs for a Fortune100 customer.

Senior Customer Success Manager, June 2020 - April 2021

ID.me, Inc. McLean, VA

- Achieved 100% retention across +\$5.5M book of business managing 50 key customers, while driving +\$100K in upsells focused on complex enterprise customers.
- Chosen by SVP to lead a strategic \$1M pilot opportunity for a new product category, requiring extensive feedback, collaboration and communication with Executive, Engineering and Product teams.

- Owned reporting, forecasting, and renewal conversations for the entire book of business, including the negotiation of numerous historical pricing updates resulting in new use cases and \$65K ARR uplift.

Manager of Customer Success, July 2017 - August 2019

XAPPmedia, Inc. Washington, D.C.

- Scaled CS team and operations from 20 to +120 customers (\$700K ARR), overseeing a team of 3 delivering +1100 voice applications and onboarding +300 users within the first 12-months.
- Led department to "Excellent" Net Promoter Score across customer-base ranging from enterprise to small media markets.
- Actively involved in product development and frequently collaborated with the Chief Product Officer to provide customer feedback, user stories in JIRA, prioritize roadmap, and ensure product quality.
- Brokered strategic partnership between Amazon and Westwood One to create voice experience gaining millions of impressions on NCAA March Madness and earning an Amazon Alexa Innovation Award.

Sales/Growth Consultant, August 2018 - February 2019

Upright Labs, Inc. Washington, D.C.

- Grew revenue by +\$80K ARR by defining ideal customer profiles, GTM strategy, and structuring outbound sales motions to expand from 5 beta customers to 16 paid enterprise customers.
- Directed marketing efforts including publishing of 2 whitepapers, conducting an industry webinar with 100+ participants, and creating product launch materials e.g. onboarding, FAQs, and product resources.

Director of Customer Success (Employee #1), July 2016 - July 2017

JabaTalks, LLC New York, NY

- Built and led all CS functions from scratch - including product delivery, customer onboarding, and support - growing to 15 customers and \$70K ARR.
- Converted unpaid pilot programs with Washington, D.C. Public Schools and Georgetown University into revenue generating and referenceable customers (\$20K ARR).
- Developed lead generation strategy including the creation of supporting artifacts, outbound email campaigns, and call scripts to generate +60 leads/month leading to an average of 2 demos/week.

Customer Success Manager, August 2014 - July 2016

Kit Check, Inc. Washington, D.C.

- Led onsite implementation and enablement for 70 hospitals including training 300 users, starting from sales handoff through adoption for nationwide customer base (representing +\$3M of business).
- Reduced implementation time 25% by building a scalable onboarding enablement program using Articulate, training and certifying +5,000 system users.

Service Delivery Analyst, June 2013 - August 2014

The Northridge Group, Inc. Chicago, IL

- Lead analyst supporting \$4M in executive engagements across 5 Principals with a focus on customer experience and technology.
- Increased customer satisfaction +5% for \$2M go-to market pilot strategy for healthcare exchanges, following strategic recommendation to monitor Voice-of-the-Customer channels for earlier interventions.
